1. Discovery Notes

Client (Sample): ClearPath Virtual Services — general virtual assistance provider

Owner: Jenna Reyes

Meeting Date: August 3, 2026 (sample)

Meeting Type: Initial Discovery Call (30 minutes)

Business Overview

ClearPath Virtual Services is a sole proprietorship offering general virtual assistance to small businesses and solo entrepreneurs — email/calendar management, data entry, customer support, and light social media scheduling. The business has been operating for about 1.5 years with a small, growing roster of 5 retainer clients.

Current Bookkeeping Situation

- Client payments are tracked loosely in a spreadsheet, updated inconsistently.
- Uses a mix of PayPal, bank transfer, and GCash to receive client payments — none reconciled together.
- No dedicated business bank account — income and expenses are mixed with a personal account.
- No chart of accounts; expenses are not categorized (software subscriptions, contractor pay, internet, etc. all lumped together).
- Owner occasionally subcontracts overflow work to 1-2 other VAs, paid informally.

Client's Goals

- See true monthly profit after subcontractor pay and software costs.
- Separate business and personal finances.
- Be BIR-compliant as the business grows and takes on more clients.
- Stop manually tracking retainer payments across multiple platforms.

Tools & Access Discussed

- Software to use going forward: QuickBooks Online (QBO).
- Client agreed to open a dedicated business bank account within 2 weeks.
- Client will provide view-only access to PayPal, bank, and GCash transaction histories.

Next Steps

- Conduct a Books Health-Check on the data currently available.
- Prepare a proposal based on findings.
- Schedule a follow-up call to walk through the proposal.

2. Books Health-Check

Client (Sample): ClearPath Virtual Services

Review Period: May 2026 – July 2026 (3 months, sample)

Reviewed By: Vicente Venice S. Villodres

Summary Findings

The books are currently maintained outside of any accounting software, with retainer income spread across multiple payment platforms and no consistent categorization or reconciliation process. The assessment below summarizes the key gaps identified.

Area	Status	Notes
Chart of Accounts	Missing	No structured account list; all expenses lumped together
Bank Reconciliation	Not started	Personal and business transactions are mixed
Income Recording	Partial	Retainer payments spread across PayPal, bank, and GCash — not consolidated
Subcontractor Pay	Untracked	Informal payments to 1-2 VAs not recorded as an expense
Financial Reports	Unavailable	No P&L or Balance Sheet has been generated
Software in Use	None	Currently tracked via spreadsheet only

Overall Books Health Rating

Needs Cleanup — Priority Level: Moderate. The business has steady retainer income, but scattered payment platforms and untracked subcontractor costs mean the owner cannot currently see true monthly profitability.

Recommended Action

- A one-time cleanup covering the last 3 months of transactions.
- Set up a proper Chart of Accounts in QuickBooks Online, including subcontractor expense tracking.
- Transition to ongoing monthly bookkeeping once cleanup is complete.

3. Proposal

Prepared For: Jenna Reyes, ClearPath Virtual Services (sample)

Prepared By: Vicente Venice S. Villodres

Date: August 3, 2026 (sample)

Overview

Based on our discovery call and books health-check, this proposal outlines a two-phase engagement: an initial cleanup of the past 3 months of records, followed by ongoing monthly bookkeeping support in QuickBooks Online.

Phase 1 — Books Cleanup (One-Time)

- Set up Chart of Accounts in QuickBooks Online tailored to a virtual service-based business.
- Categorize and record 3 months of historical transactions.
- Consolidate and reconcile income across PayPal, bank, and GCash.
- Set up subcontractor payment tracking as a distinct expense category.
- Deliver a clean starting Profit & Loss and Balance Sheet.

Phase 2 — Monthly Bookkeeping (Ongoing)

- Monthly transaction categorization and reconciliation across all payment platforms.
- Monthly Profit & Loss and Balance Sheet reports.
- Basic BIR-ready reporting support.
- Monthly check-in call or written summary.

Investment

Service	Rate (Sample)
Phase 1: 3-Month Books Cleanup (one-time)	₱6,500 flat fee
Phase 2: Monthly Bookkeeping (ongoing)	₱3,500 – ₱5,500 / month*

*Final monthly rate depends on transaction volume, number of payment platforms, and reporting needs — to be confirmed after cleanup.

Timeline

- Cleanup phase: estimated 2–3 weeks from receipt of full document access.
- Monthly bookkeeping begins the month immediately following cleanup completion.

Next Steps

- Client reviews and confirms proposal.
- Engagement letter is signed.
- Document access and platform statements are shared to begin Phase 1.

4. Sample Invoice

INVOICE

From: Vicente Venice S. Villodres vnice.online@gmail.com +63 942 808 7441 Davao City, Philippines	Bill To: Jenna Reyes ClearPath Virtual Services (sample) Davao City, Philippines
--	---

Invoice No.: CP-2026-001 (sample)

Invoice Date: August 3, 2026

Due Date: August 17, 2026 (Net 14)

Charges

Description	Qty	Amount
3-Month Books Cleanup & QBO Setup	1	₱6,500.00
TOTAL DUE		₱6,500.00

Payment Instructions

Bank transfer / GCash details to be provided upon engagement confirmation. (Sample document — for practice purposes only.)

Notes

Thank you for your business! Please reach out with any questions regarding this invoice.

5. Supporting Practice Files

A. Client Onboarding Checklist

- Signed engagement letter / service agreement
- Business registration / DTI or SEC documents
- BIR Certificate of Registration (Form 2303)
- Bank statements (last 3–6 months)
- PayPal, GCash, and other payment platform transaction histories
- List of existing business expenses/subscriptions
- Prior financial reports, if any
- Preferred communication channel and schedule

B. Starter Chart of Accounts (Virtual Service Business Template)

Account Type	Sample Accounts
Income	Retainer Income, Project-Based Income
Cost of Services	Subcontractor / VA Pay
Operating Expenses	Software Subscriptions, Internet, Payment Platform Fees (PayPal/GCash), Advertising
Assets	Business Bank Account, Accounts Receivable
Liabilities	Accounts Payable, Loans Payable

C. Monthly Bookkeeping Workflow (Reference)

- Week 1: Download and categorize prior month's transactions across all payment platforms.
- Week 2: Reconcile bank, PayPal, and GCash records.
- Week 3: Review for miscategorized or missing entries, including subcontractor payments.
- Week 4: Prepare and send monthly Profit & Loss and Balance Sheet.

Note: All client names, figures, and details in this packet are fictional and created for training/practice purposes only.
